Give Your Customers Confidence That Solar Will Deliver

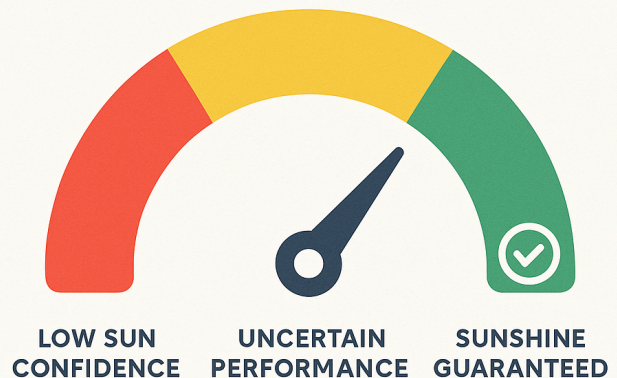

**30% MORE LIKELY TO
BUY SOLAR PANELS
IF SUNSHINE IS
GUARANTEED**

The Problem

Homeowners across the U.S. worry their solar system won't generate enough energy to justify the investment.

Our Sunshine Guarantee closes that confidence gap.

THE HOMEOWNER CONFIDENCE GAP

Our Solution

A guarantee backed by satellite data that pays homeowners based on weather related shortfalls—no claims, no hassle.

How It Works

1

Sunlight levels are monitored

Qixent uses satellite data to monitor weather over the course of the year.

2

Sunlight shortfalls are detected

On the install anniversary, the weather is compared to what was expected.

3

Homeowners are paid instantly

If the sunlight received was less than expected, the homeowner gets compensated. No forms, no follow-up, no hassle.

Why Sunshine Guarantee

Sales Team Advantages	Qixent Sunshine Guarantee	Other Performance Guarantees	Warranties
Covers Weather Related Shortages	✓	✗	✗
Covers Equipment Related Shortages	✗	✓	✓
Backed by Insurers	✓	✗	✗
No Customer Upsell	✓	✗	✓
Claims Free Process	✓	✗	✗
